The market price–earnings ratio rose to 18.6 in September 2014 from 14.4 in September 2013, reflecting some price recovery in the market. Since January 2014, 14 new companies have been listed on the DSE. The DSE market capitalization rose by 33.4% in September 2014 over September 2013. Net foreign portfolio investment declined to \$69.0 million in July–August 2014, from \$113.0 million in July–August 2013.

The Chittagong Stock Exchange (CSE) selected categories index largely followed the trends of the DSE broad index. In September 2014, the CSE index rose by 23.3% over September 2013, and CSE market capitalization rose by 41.5% during the same period.

Several factors contributed to the recent rise in stock market indicators. Reforms such as demutualization of stock exchanges, and enhanced surveillance of brokerage houses and merchant banks to improve market discipline and strengthen market monitoring stabilized the market, and helped increase investor confidence. Investors are looking for higher returns (e.g., in stocks) away from bank deposits because of the lower deposit interest rates. The Investment Corporation of Bangladesh released funds under the government refinancing scheme for share investors who were most affected by the 2010 stock market crash. The enhanced collaboration between the central bank and the Bangladesh Security and Exchange Commission is also contributing to ensure capital market stability and growth.

The number of listed securities in DSE was at 559 where 287 were companies, 41 mutual funds, 8 debentures, 221 treasury bonds and 2 corporate bonds which market capitalization stood at Tk. 3,15,696.20 crore at the end of December 31, 2015. The DSEX index stood at 4,629.64 points on December 31, 2015 as against 4864.96 points on the same day of the last year which is 4.83% lower than that of previous year.

On the other hand, the number of listed securities in CSE was 299 where 256 were companies, 41 mutual funds and 2 corporate bonds which market capitalization stood at Tk. 2,48,749.28 crore at the end of December 31, 2015. On the contrary, the CSE All Share Price Index was 14089.63 points on December 31, 2015 as against 14938.92 points on the same day of the last year which is 5.68% lower than that of previous year.
